Dear Sirs,

This letter is to inform you of the intention, of the USA Parliament Party, to run a candidate for President of the United States of America, for every voter, in every state, of the US.

I would like to receive information on how we can access the ballot in every state, for our candidate for US President and governor, and for gaining ballot qualification for our party. We need to know the number signatures required, costs, deadlines, and any other information that you can provide. Our next election for Prime Minister will be after August 5th, 1996, so we are particularly interested in any deadlines that fall around that date. My name, James Ogle, will be used as our candidate, since our Prime Minister, ~~Marcus Denoon~~, will not be running.

~ We will be founding subsidiary USA Parliament Parties in every state, and so I would like any information that is relevant to this endeavor, so that I can determine whether to categorize myself as a member of the USA Parliament Party, an independent, or a member of another party.

~ Please feel free to contact me if you have any questions, and please feel free to forward this information to any other interested people. The USA Parliament Party is free to every American voter, no matter which party they are active with, is based on the ratio 1/100ths of the votes = one of the 100 seats on the 100-member parliament committee, and is the most democratically legitimate, decisive organizations in the USA today. We have a set of rules that I can send to you.

Thank you very much for your time and your help, and I look forward to receiving the information that I've requested.

Very Truly Yours,
James Ogle, secretary
USA Parliament Party

The members of the 2nd USA Parliament were elected from an election, a 90-day election cycle, which began on 11/5/95 and ended on 2/5/96. Four-hundred and fifteen US Citizens, and one cat (ballot annulled), voted on the preference ballot, through the Internet and the US Mail.

The elected members of parliament, then cast votes (via phone, email) for Prime Minister (Marcus Denoon [Pot Party]), and secretary (James Ogle [Reform Party]), on February 15th, 1996.

THE HISTORY OF THE USA PARLIAMENT

-* FOUNDED ON AUGUST 1ST, 1995 *-

"The First, Third Party/Nonpartisan, US Presidential Mock Election" ~(2/5/95)
=====

P) Harry Browne (Libertarian) - Wins the first election.

In the first election, a preference ballot was distributed on the Internet, resulting in Harry Browne (Libertarian) winner, with Colin Powell (independent) and Noam Chomsky (New) coming in 2nd and 3rd.

M) Although the preference voting (PrV) system was used, none of Colin Powell's or Noam Chomsky's votes single-transferred (STV) to Harry Browne.

-*-

"The First Internet US Presidential Mock Open Election" (ended on 7/4/95)
=====

In the first open election, web page ballots were distributed by Alan Keyes supporters, and paper ballots were distributed by Jonah Gruber (Seattle) and James Ogle (Monterey/Pacific Grove).

James Ogle won the single-winner contest by a few votes (proving that paper ballots are more effective than eballots). A 100-member parliament committee was founded from the results of all the votes cast, which gained recognition by the FEC on August 1, 1995. Election rules were published on August 23, 1995.

Since then, Ralph Nader (Public Citizen) switched to the Green Party, and Ross Perot (independent) and James Ogle (Environmentalism) switched to the Reform Party.

-*-

THE FIRST USA PARLIAMENT

A 100-member committee, as established on 8/1/95 with the FEC;

Leader	Member of Parliament (MP)	Party/Category	Faction	Total
James Ogle		Reform	26	
	Ross Perot	Reform	8	
				34
Alan Keyes		Republican		27
Harry Browne		Libertarian		13
Randy Toler		Green	5	
	Ralph Nader	Green	1	
				6
Bill Clinton		Democratic		6
Noam Chomsky		New		4
Gary Geyer		Artists		3
Gene Marsee		Hemp		3
Jonah Gruber		Moderate		2
Howard Phillips		US Taxpayers		2
Total				100

~*~

Majority Preference Voting (MPV) for the US President:

Everyone's vote goes initially to their 1st choice. If no candidate has a majority, then the candidate with fewest votes is eliminated, and each of his ballots goes to its next choice. This process of elimination & re-distribution continues till 1 candidate has a majority of the ballots.

The Sainte-Lague seat allocation for the USA Parliament:

1. Divide the election's total number of votes by 100 (number of seats). This is the 1st quota.
2. Divide this quota into each candidate's votes, and round off to the nearest whole number. That's that candidate's seat allocation.
3. If, due to rounding, this awards a number of seats different from the desired number of 100 seats, then adjust the quota slightly up or down, till, when paragraph 2. is carried out, it will award exactly 100 seats.
